
Tables

2.1	Percentage distribution of the allocation branch activities	13
2.2	Percentage distribution of spending of the allocation branch by country	14
2.3	Distributional expenditures 2001 and 2002 (full sample and sub-samples)	15
2.4	Per capita private (market) income by country; averages for the sub-samples 2001–2002	16
2.5	Per capita government net spending by country; averages for the sub-samples 2001–2002	17
2.6	Budget determination and consolidation	20
A2.1	Spending by the allocation branch by functional category and country: 2001	23
A2.2	Spending by the allocation branch by functional category and country: 2002	24
4.1	Alternative specifications of Wagner’s hypothesis	31
4.2	ADF and PP unit root tests	34
4.3	ARDL bounds testing procedure: tests of long-run relationships	35
4.4	ARDL bounds testing procedure: long-run equilibrium relationships	36
5.1	Summary of literature	50
5.2	Summary statistics	62
5.3	Decentralization and the size of government, OECD sample two estimates (1990–92), (1995–99)	63
5.4	Decentralization and the size of government, OECD sample (1990–99)	65
5.5	Soft budget and the size of government, OECD sample (1990–99)	66
7.1	Government share, 1980–2003	97
7.2	Model estimates of the marginal product of government services	102
7.3	Estimates of optimal government size for SSA countries	104
7.4	The marginal product of components of government services	106
A7.1	The marginal product of government services: model estimates for individual countries	109

A7.2	Optimal government size: individual country tests for equation (7.3), 1980–2003	110
9.1	Variable definitions	135
9.2	Moran's I test	136
9.3a	SAR results for PFIRE, PPOL and PHW	138
9.3b	SAR results for PPWEL and PHHOSP	139
9.4a	Spatial error model (SEM) results for PFIRE, PPOL and PHW	140
9.4b	Spatial error model (SEM) results for PPWEL and PHHOSP	141
A9.1	LMerror tests for spatial correlation in residuals	145
A9.2	LMLag test	145
10.1	A framework for assessing the Iraq conflict	149
10.2	UK military costs of conflict and post-conflict, 2002–04	152
10.3	Costs of Iraq conflict: alternative data for 2002–03	153
10.4	Death rates of UK regular forces, 1995–2003	154
10.5	UK military costs of Iraq, 2003–end-March 2005	155
10.6	Costs of other UK conflicts	156
10.7	Costs of other US conflicts	158
10.8	Estimated economic impacts of a short war with Iraq	159
10.9	Summary of costs, March 2005	162
11.1	Descriptive pooled sample statistics	170
11.2	Estimates of defense-growth models by different procedures: pooled full sample, 1991–2002	172
11.3	Estimates of defense-growth models by different procedures: pooled LDC sample, 1991–2002	176
11.4	Estimates of defense-growth models by different procedures: pooled DC sample, 1991–2002	178
11.5	Estimates of defense-growth models by different procedures: pooled transition economies, 1991–2002	180
11.6	Estimates of defense-growth models by different procedures: pooled major oil exporters, 1991–2002	182
11.7	OLS estimates of defense-growth models for each cross-section, 1991–2002: full sample	184
12.1	FEM estimation results	206
12.2	GMM estimation results	207
A12.1	Military burden data	210
A12.2	Spill, threat, external war and civil status of countries	211
13.1	The fiscal referendum in Swiss cantons in 1998	220
14.1	An overview of the state-wise direct democracy process	244
14.2	Summary statistics of the mobility sample: individual specific	251

14.3	Definitions of variables and data sources	252
14.4	Summary statistics of initiative states sample	253
14.5	Summary statistics of states sample: location-specific	253
14.6	Migration choice and the initiative process	256
14.7	Migration choice model and fiscal initiatives	258
A14.1	Bowler and Donovan ranking of states on the basis of qualification difficulty and legislative insulation	261
18.1	Distribution of Security Council member countries by region and number of terms in the council	302
18.2	Countries serving 4+ terms in the Security Council	303
18.3	Security Council vetoes by permanent member	304
18.4	Multiple veto resolutions by issue	305
18.5	UK vetoed resolutions (not vetoed by USA)	306
18.6	Descriptive statistics	310
18.7	LOGIT results for the original model including replacement of missing data and missing dummy variables	313
18.8	LOGIT results for the expanded model	316
A18.1	Membership in the Security Council	319
19.1	Definitions of variables and data sources	330
19.2	Estimates of strategic deficit models by different procedures	332
19.3	Estimates of strategic deficit models by different procedures	333
19.4	Regression results: Barro's basic equation	336
19.5	Tests of tax rates as a random walk with drift	339
A19.1	Parliamentary and presidential regimes included in the data sample	341
A19.2	Variable definitions and data sources	342
20.1	Comparison of the two models' predictions	351
20.2	Summary statistics of variables	353
20.3	SYS GMM estimation of productive public investment: basic model (different specifications of encompassing interest)	354
20.4	SYS GMM estimation of productive public investment: basic model (with term limits)	356
20.5	SYS GMM estimation of productive public investment: influence of interest groups	358
A20.1	Distribution of countries among effective executive type	363
21.1	Revenues, expenditures and composition of federal fiscal transfers in a budget of average region	372
21.2	Pooled OLS regressions	376
21.3	Regressions with fixed effects for all years	377
21.4	Regressions with fixed effects for different periods	378
A21.1	Descriptive statistics	386
