4.3	Conclusion	91
5	Limits to growth – sources	95
5.1	The economic cycle and the biosphere	95
5.2	Some lessons from the past	100
5.3	Materials	107
5.4	The special case of energy	117
5.5	Conclusion	132
6	Limits to growth – sinks and services	135
6.1	Planetary boundaries	136
6.2	Sinks	138
6.3	Services	156
6.4	Conclusion	167
7	Limits to growth – synthesis	168
7.1	System dynamics	168
7.2	Human appropriation of net primary production	174
7.3	The ecological footprint	176
7.4	Conclusion	181
8	Scale, composition and technology	183
8.1	Scale	183
8.2	Composition	184
8.3	Technology	185
8.4	IPAT	186
8.5	Making room – the case of carbon	197
8.6	Economic growth, CO ₂ and energy	202
8.7	The colors of growth	205
8.8	Conclusion	207
9	Economic growth and happiness	209
9.1	Does growth make people happy?	209
9.2	The Genuine Progress Indicator	216
