Figures

3.1 China’s GDP and per capita GDP (1978–2009) 47
3.2 China’s GDP growth rate (1979–2009) 50
3.3 Quarterly net loan issues 50
3.4 Inflation and economic growth 53
3.5 Contributions to GDP growth 54
3.6 International trade since China joined WTO 55
3.7 China’s monthly trade surplus and foreign exchange reserve, 1995–2010 57
3.8 China’s outbound FDI 58
3.9 The renminbi exchange rate with the US dollar 59
4.1 Comparison of budget deficits, external balances and debt show the widespread vulnerability of the advanced economies 66
4.2 GDP growth across the EU shows unusual divergence in 2010 with Germany doing well and Greece now the worst performer 67
4.3 China’s imports by origin (lhs, %, share of total) and growth rates (rhs) – developing economies’ share is growing rapidly 69
4.4 Developing countries contribute most to global growth 70
4.5 Long-run projections based on a return to trend growth 71
4.6 The ABC of recovery scenarios – A (just a cyclical blip), B (one-off loss in output, growth recovers) and C (permanent loss in output and growth) 72
4.7 Euro area indicators illustrate the strong rebound in exports in 2010 but weaker recovery in industrial production and retail sales 73
4.8 GDP growth in selected European economies in mid-2010 (% year-on-year) – unexpectedly strong growth in some countries but also wide divergence 74
4.9 Average GDP growth pre-crisis and during the crisis versus IMF forecasts for 2011–2015 (ranked according to pre-crisis growth) 75
4.10 Monetary and financial institutions’ liabilities (excluding Eurosystem and National Central Banks, % of GDP) 77
4.11 Germany’s exports boosted by Chinese demand growth (exports to China, euros bn on lhs, export growth, % y-on-y on rhs) 79
4.12 Public sector debt projections to 2020 have been badly damaged by the impacts of the recession and bank bail-outs 80
4.13 EU economy scenarios to 2020 86
6.1 Trade in balances in EMU, 1999–2009 112
6.2 Productivity and employment growth rates in selected countries 119
6.3 Productivity decomposition in different EU countries, 2000–2008 122–123
7.1 Long term output growth 140
7.2 Relationship between GDP growth and unemployment reduction (Germany) 145
7.3 Relationship between GDP growth and unemployment reduction (France) 146
7.4 Relationship between GDP growth and unemployment reduction (UK) 146
7.5 Relationship between GDP growth and unemployment reduction (Spain) 147
7.6 Relationship between GDP growth and unemployment reduction (Poland) 147
7.7 Relationship between GDP growth and unemployment reduction (Ireland) 148
8.1 World energy-related carbon dioxide emissions, 2007–2035 159
8.2 Average annual growth in energy-related carbon dioxide emissions in OECD economies, 1990–2035 160
8.3 Average annual growth in energy-related carbon dioxide emissions in non-OECD economies, 2007–2035 160
8.4 World energy-related carbon dioxide emissions by fuel type, 1990–2035 161
8.5 Current multilevel governance of climate change 164
8.6 Fragmented–horizontal governance of climate change 166
