Tables

1.1 Distribution of care by childcare type                                  15
3.1 Father’s take-up of total leave days with benefit in the event of     59
    pregnancy, childbirth or adoption (%)                                  
3.2 Children in publicly funded day care 2008 (% of age group)            59
5.1 Development of childcare capacity, 2004-2009                          97
5.2 Size of organisation and market share, 31 December 2009               98
5.3 When would you consider switching to an alternative provider         100
    (n=821)?                                                              
5.4 Maximum and average prices for childcare services per hour,           101
    in euro                                                              
5.5 Division of costs of formal childcare at a macro-level (%)            104
6.1 Median gross weekly earnings of men and women in Northern             114
    Ireland, 2007-11                                                     
6.2 Average weekly private childcare costs in Northern Ireland            119
7.1 Labour force participation of lone and partnered mothers              136
    (weighted)                                                          
7.2 Summary statistics for lone and partnered first-time mothers’        137
    characteristics MCS1 (standard deviation in parentheses)             
7.3 Main childcare use MCS1 and after-school childcare MCS3             143
7.4 Childcare usage by mother’s education and partnership status         145
    as a percentage of each qualification level of working mothers       
9.1 Activity rates of 15-64 year-old men and women (%)                    175
9.2 Unemployment and activity rates in Hungary by gender, 2005            175
9.3 Female employment rates according to highest level of                176
    education, 2009                                                     
9.4 Female employment rates in the 25-49 years age group                 177
    according to the level of education and the number of children in    
    2006 (%)                                                            
9.5 Breakdown of parental benefits by insurance status                   182
10.1 Childcare help received from own parents                             210
10.2 Childcare help given by baby boomers to their adult children         212
10.3 Reasons for receiving and giving childcare help according to         214
    receivers’ and givers’ opinions, among those who received or        
    gave childcare help in 2007 (%)
