law-making 458–9
Non-Legally Binding Instrument on All Types of Forests 159, 459
UN Framework on Business and Human Rights 116–17, 118–20
corporate accountability 116–17, 123, 124
monitoring mechanisms 125
criticisms of 120
Guiding Principles 116–17, 153
importance of 120
pillars of Protect, Respect, and Remedy, built on 118–19
UN Global Compact 114–16
mining operations 347
monitoring mechanisms 125–6
purpose 115
scope 115–16
standards based on environmental law 121–2
UN Norms on Responsibility of Transnational Corporations 116, 117–18
rejection of 117–18
requirements of 117
UN Security Council
breaking link between natural resources and violent conflicts 99–105
certification schemes/Kimberley Process 100, 101
due diligence mechanisms, incorporating 102–4
enforcement measures/sanctions regimes 100–101, 104
environmental dimension of resource-related conflicts 104–5
expert reports on causes of conflicts 100
legal basis for role in addressing resource-related conflicts 100
regulating conduct of companies from outside region 102–4
structural reforms, promoting 101–2
targeting of entities and individuals in illegal trade 102
potential role of Security Council/international law in conflict prevention 105–6
primary responsibility for maintaining peace and security 99
resource-conflict nexus and resolutions of Security Council 98–9
UN Watercourses Convention 306, 307
ecosystems obligations 320
ensuring adequate supplies of drinking water 323
Ramsar Convention, and 320
recourse for adversely affected individuals/communities 321
States having regard to vital human needs 322–3
UNCLOS
costal States
EEZ 182
innocent passage 184
sovereignty of 183, 184
EEZ 178
costal states, rights of 182
fisheries management in 184–90
over-exploitation, preventing 20
fisheries management
coastal States’ areas 183–4
EEZ, in 184–90
management-oriented approach
interrelated with zonal approach 182
fisheries management in EEZ 184–90
enforcement and dispute settlement 189–90
fisheries management parameters 185–6
maximum sustainable yield (MSY) 185–6
petroleum deposits relating to offshore boundaries, regulation of 247
special rules relating to particular categories of fish stocks 188–9
total allowable catch (TAC) 185, 186
high seas fisheries, regulatory regime for 372–4
definition of high seas 372
exclusive jurisdiction of Flag State 372–3
MSY, securing 373
obligation to cooperate 373–4
see also high seas fisheries
Law of the Sea Tribunal and UNCLOS
arbitral powers 462–4
marine genetic resources of areas beyond national jurisdiction 416–18
pollution, reduction/control of 183
protection and conservation of marine species/environment 178, 182–3
regulating rights/obligations in maritime zones 182
seabed/Area, mining in 341
sovereignty, constraints on 20
sustainable use obligations 20
territorial sea
fishing activity 183–4
innocent passage, right of 183–4
UNCTAD 43
UNECE Water Convention 306, 307
UNESCO
law-making 456–7
World Heritage Convention see World Heritage Convention
Universal Declaration on Human Rights 459
cultural rights 79
right to property 141
Voluntary Guidelines on Responsible Governance of Tenure of Land, Fisheries and Forests (VGGT) 152–4
extensive guidance on multiple aspects of land governance 153
forest-dependent peoples’ rights 161
high level political support for 152, 154
land-based investments, guidance on 154
land redistribution and restitution, guidance on 154
‘legitimate tenure rights’ as central pillar of 153–4
limitations of 154
non-binding nature of 153, 154
significance of 154
water 305–26
fresh water crisis 305
global water requirements increasing 305
human rights 320–4, 325
biofuels, right to water and 291
individualizing international water law 321–2
international investment disputes on
water services, and 325–6
obligations on States to protect
freshwater resources 322, 323
right to water 23–4, 320–21, 322–4,
324–6, 505
water as vital human need 322–4
international investment law 324–6
hydropower projects 324–5
international investment disputes on
water services, human rights and
325–6
international water law, and 324
international water law 305–8
cooperative arrangements over shared
international rivers and lakes 305
equitable and reasonable utilization,
principle of 306–7
Helsinki Rules 305–6, 307
international investment law, and 324
key rules 306–7
management of shared waters, duty to
cooperate in 306–7
transboundary harm, duty to prevent
306–7
water conventions 306
international water law, evolution of 308–12
absolute territorial integrity 309
absolute territorial sovereignty 308–9
common management 311–12
limited territorial sovereignty 310–11
multilateral environmental agreements
317–20
multi-level water resources governance,
towards convergence in 314–17
adoption of rules at different levels of
governance 314–15
environmental trusteeship, shift towards
316
new paradigms in transboundary water
resources management 312–14
regional cooperation for localized
ecological units 316
status under international trade law 50–51
technical rules and procedures 316
whaling 191

Antarctica 435–6
Arctic 355
International Whaling Convention 202, 206
moratorium on 355
wildlife and landscapes 198–217
international legal instruments on use of
wildlife and landscapes 203–6
conservation of nature, instruments on
204
conservation of wildlife, instruments on
203
evolution of international instruments
205–6
overview 203–4
international norms addressing use of
landscapes 212–16
European Landscape Convention 213–14
other European instruments addressing
landscape use 214–16
World Heritage Convention 212–13
international norms addressing use of
wildlife 207–12
direct taking 209–11
international trade/CITES 211–12
sustainable use 207–9
natural resources, landscapes as 202–3
consumptive and non-consumptive uses
202
impact of human uses of 202–3
land and landscapes 202
land use, and 202
landscape as scenery 202
landscape, definition of 202, 214, 215–16
landscapes, uses of 202
sustainable and non-sustainable use of
202
values difficult to quantify 203
natural resources, wildlife as 198–202
amenity value 200
commodity value 200
consumptive and non-consumptive uses
199–200
definition of 198
human uses of 198–200
impact of human use on wildlife
populations/ecosystems 200
moral value 200
multifaceted value of wildlife 200–202
option value 200
quantifying value of wildlife in monetary
terms 199–201
sustainable and non-sustainable use of
wildlife 200
women gender equality 144
VGGT 153
land rights of rural women 144
World Bank 47, 453, 467
global economic cost of corruption 87
illegal timber trade 167
public participation informing work in
corporate accountability 121
natural resources development 83–4
land rights of rural women 144
guarantees of procedural fairness 84
petroleum legislation, and 257–8
renewable energy projects, financing for 272
STAR initiative 96
rights of local communities, environmental
public participation informing work in
protection projects and 74
watercourse development projects 316
World Bank 47, 453, 467
World Charter for Nature 4
World Economic Forum 43
global economic cost of corruption 87
World Health Organization (WHO)
PIP Framework for Sharing Influenza
Viruses 231–4
development of virus sharing framework 231–2
industry’s direct financial participation in
like products 53
strategy, requirement of 233–4
natural resources disputes under other
intellectual property rights 232–3
WTO Agreements 61–4
objectives 232
natural resources in WTO dispute
Standard Material Transfer Agreements
settlement practice 54–64
232–3
World Heritage Committee
evolutionary interpretation of GATT 56
rights of local communities 74
cultural heritage, definition of 212–13, 457
WTO law 52–4
