Contributors

Robert W Adler is the Jefferson B and Rita E Fordham Presidential Dean and Distinguished Professor of Law at the University of Utah, SJ Quinney College of Law. His books include Modern Water Law: Private Property, Public Rights and Environmental Protection (Foundation Press, 2013, with Craig and Hall); Restoring Colorado River Ecosystems: A Troubled Sense of Immensity (2007); Environmental Law: A Conceptual and Pragmatic Approach (with Driesen and Engel, 3rd edn 2015); and The Clean Water Act: Twenty Years Later (with Landman and Cameron, 1993). He has represented Utah and national environmental groups in pro bono litigation, and served on the boards of local and national organizations and advisory groups, including FRIENDS of Great Salt Lake, Hawkwatch International, EPA Federal Advisory Committees, and a Taskforce on Unfunded Federal Mandates for the US Advisory Commission on Intergovernmental Relations.

Mary Jane Angelo is a Professor of Law and Director of the Environmental and Land Use Law Program at the University of Florida Levin College of Law. Professor Angelo has extensive publications on a variety of environmental law topics including the recent books Food, Agriculture and Environmental Law (with Czarnezki and Eubanks) and The Law and Ecology of Pesticides and Pest Management. She has served on National Academy of Sciences committees on Everglades Restoration and on Ecological Risk Assessment under FIFRA and the Endangered Species Act. Professor Angelo joined the UF faculty in 2004 after many years of environmental law practice, including serving as an attorney for the US Environmental Protection Agency in Washington, DC, and for the St. Johns River Water Management District in Florida. Professor Angelo received her BS in Biological Sciences from Rutgers University, and both her MS, in Entomology, and JD from the University of Florida.

Rebecca M Bratspies is a Professor of Law and the director of the CUNY Center for Urban Environmental Reform (CUER). She has published widely on regulatory policy – with a focus on environmental democracy, regulating new technologies, and corporate responsibility. Her recent scholarship explores questions of urban sustainability, and the intersection of human rights and environmental regulation. She is a scholar with the Center for Progressive Reform, the Environmental Law Collective and...
has served as an appointed member of the ABA Standing Committee on Environmental Law, a member of the Executive Committee of the American Association of Law Schools Section on the Environment, and an advisor to the Consultative Group on Agricultural Research.

**Amy Cosby** is part of the research team at the Australian Centre for Agriculture and Law at the University of New England (UNE). She holds a Bachelor of Agriculture/Bachelor of Laws (Hons) and a PhD in the area of precision agriculture, also from UNE. Her research interests are in the areas of land use governance and global food security.

**Anél Du Plessis** (BA Law, LLB, LLM, LLD) is Professor of Law at the North-West University (NWU) (Potchefstroom Campus) and heads its LLM programme in Environmental Law and Governance. Her published research focuses on a combination of environmental-, local government and different aspects of human rights law and environmental governance. Anél is an elected member of the South African Young Academy of Science, a rated researcher with the National Research Foundation of South Africa and an alumnus of the DAAD, Fulbright and Alexander von Humboldt Scholarship programmes. She is a member of the Executive Committee of the Environmental Law Association of South Africa and Assistant Editor of the *Potchefstroom Electronic Law Journal*.

**Lance H Gunderson** is a Professor of Environmental Sciences at Emory University, Atlanta, GA, USA. He is a systems ecologist who is interested in how people understand, assess, and manage large social ecological systems. He is Co-editor in Chief of Ecology and Society and Chair of the Resilience Alliance. He is a Fellow with the Beijer International Institute for Ecological Economics, Swedish Royal Academy of Sciences.

**Christian Häberli** works as a Senior Research Fellow at the World Trade Institute of Bern University on various trade, agriculture, employment and development policy issues. His main research topic is food security from a trade and investment perspective. He also works as a lecturer and policy adviser in Europe and in the Global South. Graduated in 1977 at Basel University with a PhD on the subject of African Investment Law. Degrees for Development Sciences in Geneva (1975) and for Theology in Bern (2009). Professional career for the International Labour Organization (ILO) and for the Swiss Government with assignments in Madagascar, Thailand, Nepal and Switzerland.

**Keith H Hirokawa** teaches environmental law and natural resources law at Albany Law School. His scholarship explores convergences in ecology, ethics, economics, and law, with particular attention given to local
environmental law, ecosystem services policy, watershed management, and environmental impact analysis. Prior to joining the faculty at Albany Law, Professor Hirokawa taught at Texas Wesleyan University School of Law and the University of Oregon School of Law. His books include *Greening Local Government* (2012, with Patricia Salkin), *Environmental Law and Contrasting Ideas of Nature* (2014), and *Rethinking Sustainability to Meet the Climate Change Challenge* (2015, with Jessica Owley).

**Amanda Kennedy** is the Deputy Director of the Australian Centre for Agriculture and Law at the University of New England in Australia (UNE). Her research interests include instruments and institutions for effective land use governance, and environmental justice. She was the recipient of an Australian Research Council (ARC) Discovery Early Career Researcher Award between 2012 and 2015 to examine systems for managing land use conflict.

**Robert Kibugi** teaches law at the University of Nairobi, and is a specialist on climate change, water services, land law, land use law and energy. He holds a doctorate in law from the University of Ottawa. He has extensive public policy and legislative experience in Kenya, including design and draft of laws and policies on climate change, water services and land degradation.

**Elodie Le Gal** is a French-Australian academic lawyer and researcher who specialises in legal and institutional analysis. Her research, and research-led teaching expertise, which supports team-work and strategic community-led applied research in Australia and overseas through strong research collaborations with international universities, the private sector and the IUCN Academy of Environmental Law, focuses on the sustainable governance of natural resources for improving people’s livelihoods and the promotion of fair economic development. She obtained her PhD at the University of New England in 2013. She also has a Master of Laws (Diplôme d’Etudes Approfondies) in Private International Law/International Business Law from the Pantheon-Assas Faculty of Law, Paris.

**Paul Martin** specialises in research on the effectiveness of environmental governance, with a particular emphasis on the rules and organisations that affect rural sustainability. His background is in law and corporate strategy, and for many years he led environmental organisations, whilst being a corporate director and advisor. His team in the AgLaw Centre uses multidisciplinary and empirical approaches to understand the performance in practice of legal arrangements and to propose law and policy reforms.

**Michelle Nowlin** is a Supervising Attorney with the Duke Environmental Law and Policy Clinic and Clinical Professor of Law at Duke University
School of Law, with a secondary appointment at the Nicholas School of the Environment. Her practice and scholarship focus on the intersection of food and agricultural production and environmental protection. Prior to Duke, she worked as a Senior Attorney with the Southern Environmental Law Center, where she developed and led the organization’s Hog and Poultry Industry Project and litigated cases involving the Clean Water Act, Endangered Species Act and National Environmental Policy Act. She earned her BA, with Highest Honors, from the University of Florida, and earned a dual JD/MA in Environment and Natural Resources Economics and Policy from Duke University.

Akachi Odoemene’s research focuses on African Social and Cultural History, Peace and Conflict Studies, Urban History, Ethnic Studies and Development Studies. His work has appeared in several edited volumes, as well as the *Journal of Historical Sociology, Armed Forces and Society, African Development, African Economic History*, *African Identities* and many others. He was an African Humanities Program (AHP) Fellow of the American Council of Learned Societies (ACLS) in 2009, and a Hewlett Visiting Scholar at PSTC, Brown University, Providence, USA in 2012. Dr Odoemene is currently an Oxford-Princeton Global Leaders Post-doctoral Fellow at the Woodrow Wilson School of Public and International Affairs, Princeton University, USA and a Senior Lecturer in the Department of History and International Studies, Federal University Otuoke, Bayelsa State, Nigeria.

José Paulo Pietrafesa has a PhD in Sociology and is Professor at the Federal University of Goiás, researching in themes such as the expansion of sugarcane production and its social (education and working conditions) and environmental consequences in the Goiás State.

Pedro Araujo Pietrafesa has a PhD in Social Studies (University of Brasilia) and is a Professor at the Pontifical Catholic University of Goiás (PUC-GO).

JB Ruhl joined Vanderbilt’s law faculty as the David Daniels Allen Distinguished Chair of Law in 2011. He is an expert in environmental, natural resources, and property law, and also studies the legal industry and legal technology. He was named director of Vanderbilt’s Program on Law and Innovation in 2014 and serves as the Co-director of the Energy, Environment and Land Use Program. He received a BA in Economics and Juris Doctorate from the University of Virginia, a Masters of Law from George Washington University, and a PhD in Geography from Southern Illinois University.
Sérgio Sauer has a PhD in Sociology, is a professor at the University of Brasilia (UnB) and a researcher of CNPq, studying agrarian social movements, land struggle and the expansion of agribusiness in the Amazon region.

Emily Spiegel is a Law Fellow in the Duke Environmental Law and Policy Clinic. She previously worked on agricultural and environmental issues at the Food and Agriculture Organization, the Environmental Law Institute, the International Fund for Agricultural Development, and the US Department of Agriculture. She also served as a Peace Corps volunteer in Jordan. Spiegel received her BS from Georgetown University and her JD from Duke University School of Law. Her professional interests lie in the areas of agricultural law, law and development and conservation law.

Jonathan Verschuuren is a Professor of International and European Environmental Law at Tilburg University and Marie Sklodowska Curie fellow at the University of Sydney. His research mainly focuses on various legal aspects of climate change, such as coastal adaptation and climate change and agriculture. Verschuuren has written more than 300 publications in the field of environmental law, including several books and many articles in outstanding refereed journals throughout the world. Some of his recent publications include *Research Handbook on Climate Change Adaptation Law* (Edward Elgar 2013), ‘Hydraulic Fracturing and Environmental Concerns: The Role of Local Government’ *Journal of Environmental Law* (2015), and ‘The Paris Agreement on Climate Change: Agriculture and Food Security’ *European Journal of Risk Regulation* (2016).
