

Acknowledgments

This book would not have been possible without the support of many people. In particular I would like to express my gratitude to Professor Władysław Czapliński, Professor Bartłomiej Krzan, Professor Cezary Mik, Professor Artur Kozłowski, and Alex Liber, as well as the anonymous reviewers of the book proposal for all their critical comments on the book as a whole as well as on its specific chapters. Of course, I take full responsibility for all mistakes and omissions.

I also would like to acknowledge the financial supported provided by the Polish National Science Centre within the research grant UMO-2016/21/B/HS5/02065 (“Regulation of electronic nicotine delivery systems (e-cigarettes): national and international legal challenges,” 2017–19).

The excellent editorial work done by Dr Kaja Kowalczywska and the language correction provided by James Hartzell should be mentioned here as well.

Last but not least, special thanks go to Olga Wysocka, Franek, and Zosia. This book project would never have been successfully concluded without their encouragement and constant support.
